

2016-17 GERIATRIC ASSESSMENT PROGRAM (GAP)

STANDARDIZED REFLECTION QUESTIONS

Student ID #: _____

Profession: _____

GAP Clinic Date: _____

Your Patient-care Experience

Consider all professions, as well as the patient and those accompanying the patient, when answering items 1-3:

1. Please list 3 things you have learned about working with older adults, and from whom you learned them.

2. What happened that surprised you and/or you didn't expect?

3. How will your learning today change the way you care for/or have thought about adult elders or inter-professional care.

Your Interprofessional Experience

Consider your observation of the interprofessional team and its interaction with the patient, those accompanying the patient, and the other team members, when answering items 4-6:

4. List three items that you can learn from other professionals that will improve your ability to care for an older adult.

5. List three items that your profession can offer to other professionals that will improve the other professional's ability to care for an older adult.

6. Describe two mechanisms by which interprofessional care can improve the health care of older adults.

Please provide any additional thoughts and feedback on your experience in GAP clinic.
